- Travel
- Chess
- Esports

Alexy Durand

Software developer

EDUCATION

2024-2027 - Computer Science student (BUT) in Blagnac.
2023 - Baccalaureate with honours (Maths / HGGSP majors)

PROJECTS & EXPERIENCE

Internship - Full-Stack & Power Platform Developer

Orange, Balma - 2026

- Built two **Power Apps** applications connected to **SharePoint** and automated workflows with **Power Automate**.
- Built a Full-Stack portfolio website with **React**, **Node.js, Express** and a **REST API**.
- Designed a complete **Power BI** report to analyse and visualise the inventory of the server fleet.
- Developed a cybersecurity awareness website in **HTML/CSS/JS**, shared on Orange's internal channels.

Project - Application development

- Developed an esports tournament management application in **JAVA**, including requirements analysis, design and the implementation of a working graphical interface.

Personal project - showcase website

- Developed a showcase website in **HTML**, **CSS** and **JavaScript**, with a responsive layout and interactive elements.
- A project that strengthened my skills in web design, responsive design and client-side interactivity.

Project - Database design

- Designed a relational database from a set of specifications with **Oracle SQL Developer**.

Florist - 2023/2024

Pierre Charlas flower shop, Toulouse

- Advice and sale of flowers and bouquets for events.
- Developed an eye for aesthetics and good customer relations.
